# LEGAL & SAFETY

This manual contains technical information regarding Bayer SeedGrowth™ Equipment. Please read and understand these instructions completely before proceeding to install and operate the equipment. Bayer reserves the right to change specifications, models, components, or materials at any time without notice. For additional equipment information contact us at 1.800.634.6738. Please have this manual available when contacting Bayer.

Always use caution and common sense when working with any chemical. Read the product label and SDS carefully and follow their instructions exactly as described.

Optimal operating conditions for this piece of equipment requires an ambient temperature 32° F to +104° F (0° C to +40° C), relative humidity less than 90% (minimum condensation). Make necessary provisions to protect this piece of equipment against excessive dust, particles containing iron, moisture and against corrosive and explosive gases.

Our technical information is based on extensive testing and is, to the best of our current knowledge, true and accurate but given without warranty as the conditions of use and storage are beyond our control. Variables, such as humidity, temperature, change in seed size or variety and viscosity of chemical products can all affect the accuracy of the chemical application and seed coverage. To ensure the desired application rate and optimum seed coverage, check the calibration periodically throughout the day, and make adjustments as needed.

Any person who is involved in the installation or periodic maintenance of this equipment should be suitably skilled or instructed and supervised using a safe system of work. Isolate the treater before removing guards for maintenance.

# EXPOSURE CONTROL

Always use caution and common sense when working with chemicals. Read the product label and SDS carefully and follow their instructions exactly as described. The following Personal Protective Equipment (PPE) recommendations and best practices help promote safe use in seed treatment.

Note: Exposure Control signs and labels conform to the requirements of ANSI Z535.4 or ISO 3864.

### Wear protective clothing

Wear disposable or reusable coveralls with long sleeves.

### Hand protection required

Wear chemical-resistant gloves.

### Wear rubber boots

Wear chemical resistant rubber boots.

### Labels

Label recommendations and directions for handling must be followed, including treatment procedure (use of sticker) as well as the safety requirements.

### Treatment products

Keep products in a locked room that has been approved for crop protection products.

### Wear a mask

Wear respiratory protection.

### Eye protection required

Wear protective eyewear.

### Calibration

Seed treatment equipment must be checked and calibrated regularly to ensure accurate and safe application.

### Clean seed

Use well cleaned seed to avoid creation of polluted dust that will contaminate the machine, treating facility, workers, farmers and the environment during sowing.

### Cleaning

Use a vacuum to clean machines. Avoid using compressed air for cleaning.

### Laundry

Wash soiled reusable clothing separately. Workers must take a shower after each shift.

### Empty containers

Non-returnable empty containers must be triple rinsed before they can be disposed. For others the recommendation of the producer must be followed.

### Spillage

Spillage must be avoided; it must be thoroughly cleaned up to avoid contaminating the environment and waterways.

### Maintenance

Keep machinery clean between treating sessions.

# REFERENCE SYMBOLS

Symbols and signal words are used to identify the level of hazard and help avoid personal injury.

Note: Safety signs and labels conform to the requirements of ANSI Z535.4 or ISO 3864.

### Shock Hazard

Alerts that dangerous voltage may be present.

### Warning

Alerts that a hazard may cause serious injury or death.

### Caution

Alerts that a hazard may cause minor or moderate injury.

### Hand crush - moving parts

Alerts crushing is possible.

### Pinch point

Keep hands away from pinch points.

### Rotating shaft

Do not wear loose clothing around turning parts.

### Disconnect

Disconnect to de-energize before opening.

### Use guards

Keep guards in place. Do not remove during operation.

### Lifting

Requires two people to safely lift an item.

### Lift points

Requires the use of proper rigging and lifting techniques based on the lift plan.

### Center of gravity

Indicates the center of gravity of the machine to help assist when rigging and lifting.

### Tools

Required tools for installation and maintenance.

### Parts

Required parts for installation and maintenance.

### Tip

Calls attention to special information.

### Note

Emphasizes general information worthy of attention.

### Example

Provides a problem or exercise that illustrates a method or principle.

# INTRODUCTION

Title displays on all screens in this location, indicating which screen is on display

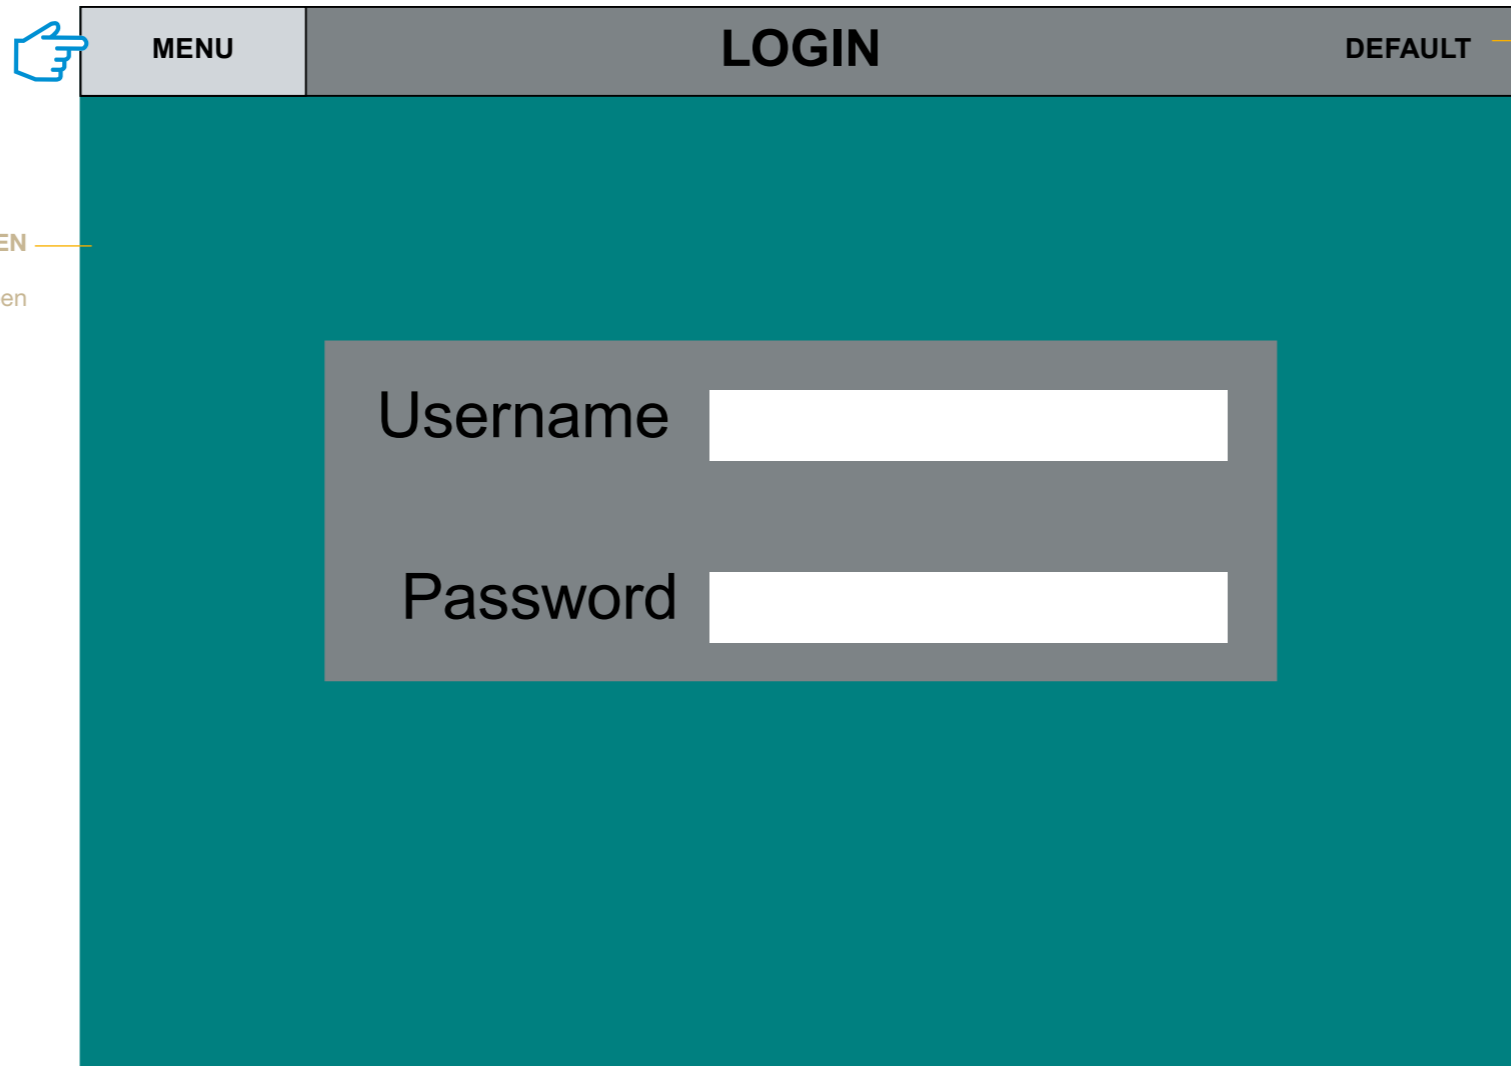

## MAIN MENU Screen

When the power panel is turned ON, the PLC will boot up the **STEP TECHNOLOGY** application programme. Auto login displays the **MAIN MENU Screen** (shown above) on the HMI touch panel. The **MAIN MENU Screen** is the HMI navigation screen. The **MENU** button (shown above, top left corner) displays in this location on all screens, which allows users to return to the **MAIN MENU Screen** at anytime.

This is an interactive PDF, designed to replicate how the actual HMI touch panel functions.

**Step 1:** Touch each button above to navigate to each screen and learn details of functionality. Touch the **MENU** button on each screen to return to this page in this manual.

LOGIN SCREEN

Displays a system generated login screen

DEFAULT

Indicates the level of login (default/user, supervisor, technician) based on login status.

Name changes when users log in with a different Username and Password.

Displays on all screens in this location.

### LOGIN Screen

Three levels of login are Default (User), Supervisor and Technician.

**Step 1:** Touch the **Username** text field: a keyboard pop-up opens. Enter a username and touch **OK**; the keyboard pop-up closes.

**Step 2:** Touch the **Password** text field: a keyboard pop-up opens. Enter a password and touch **OK**; the keyboard pop-up closes.

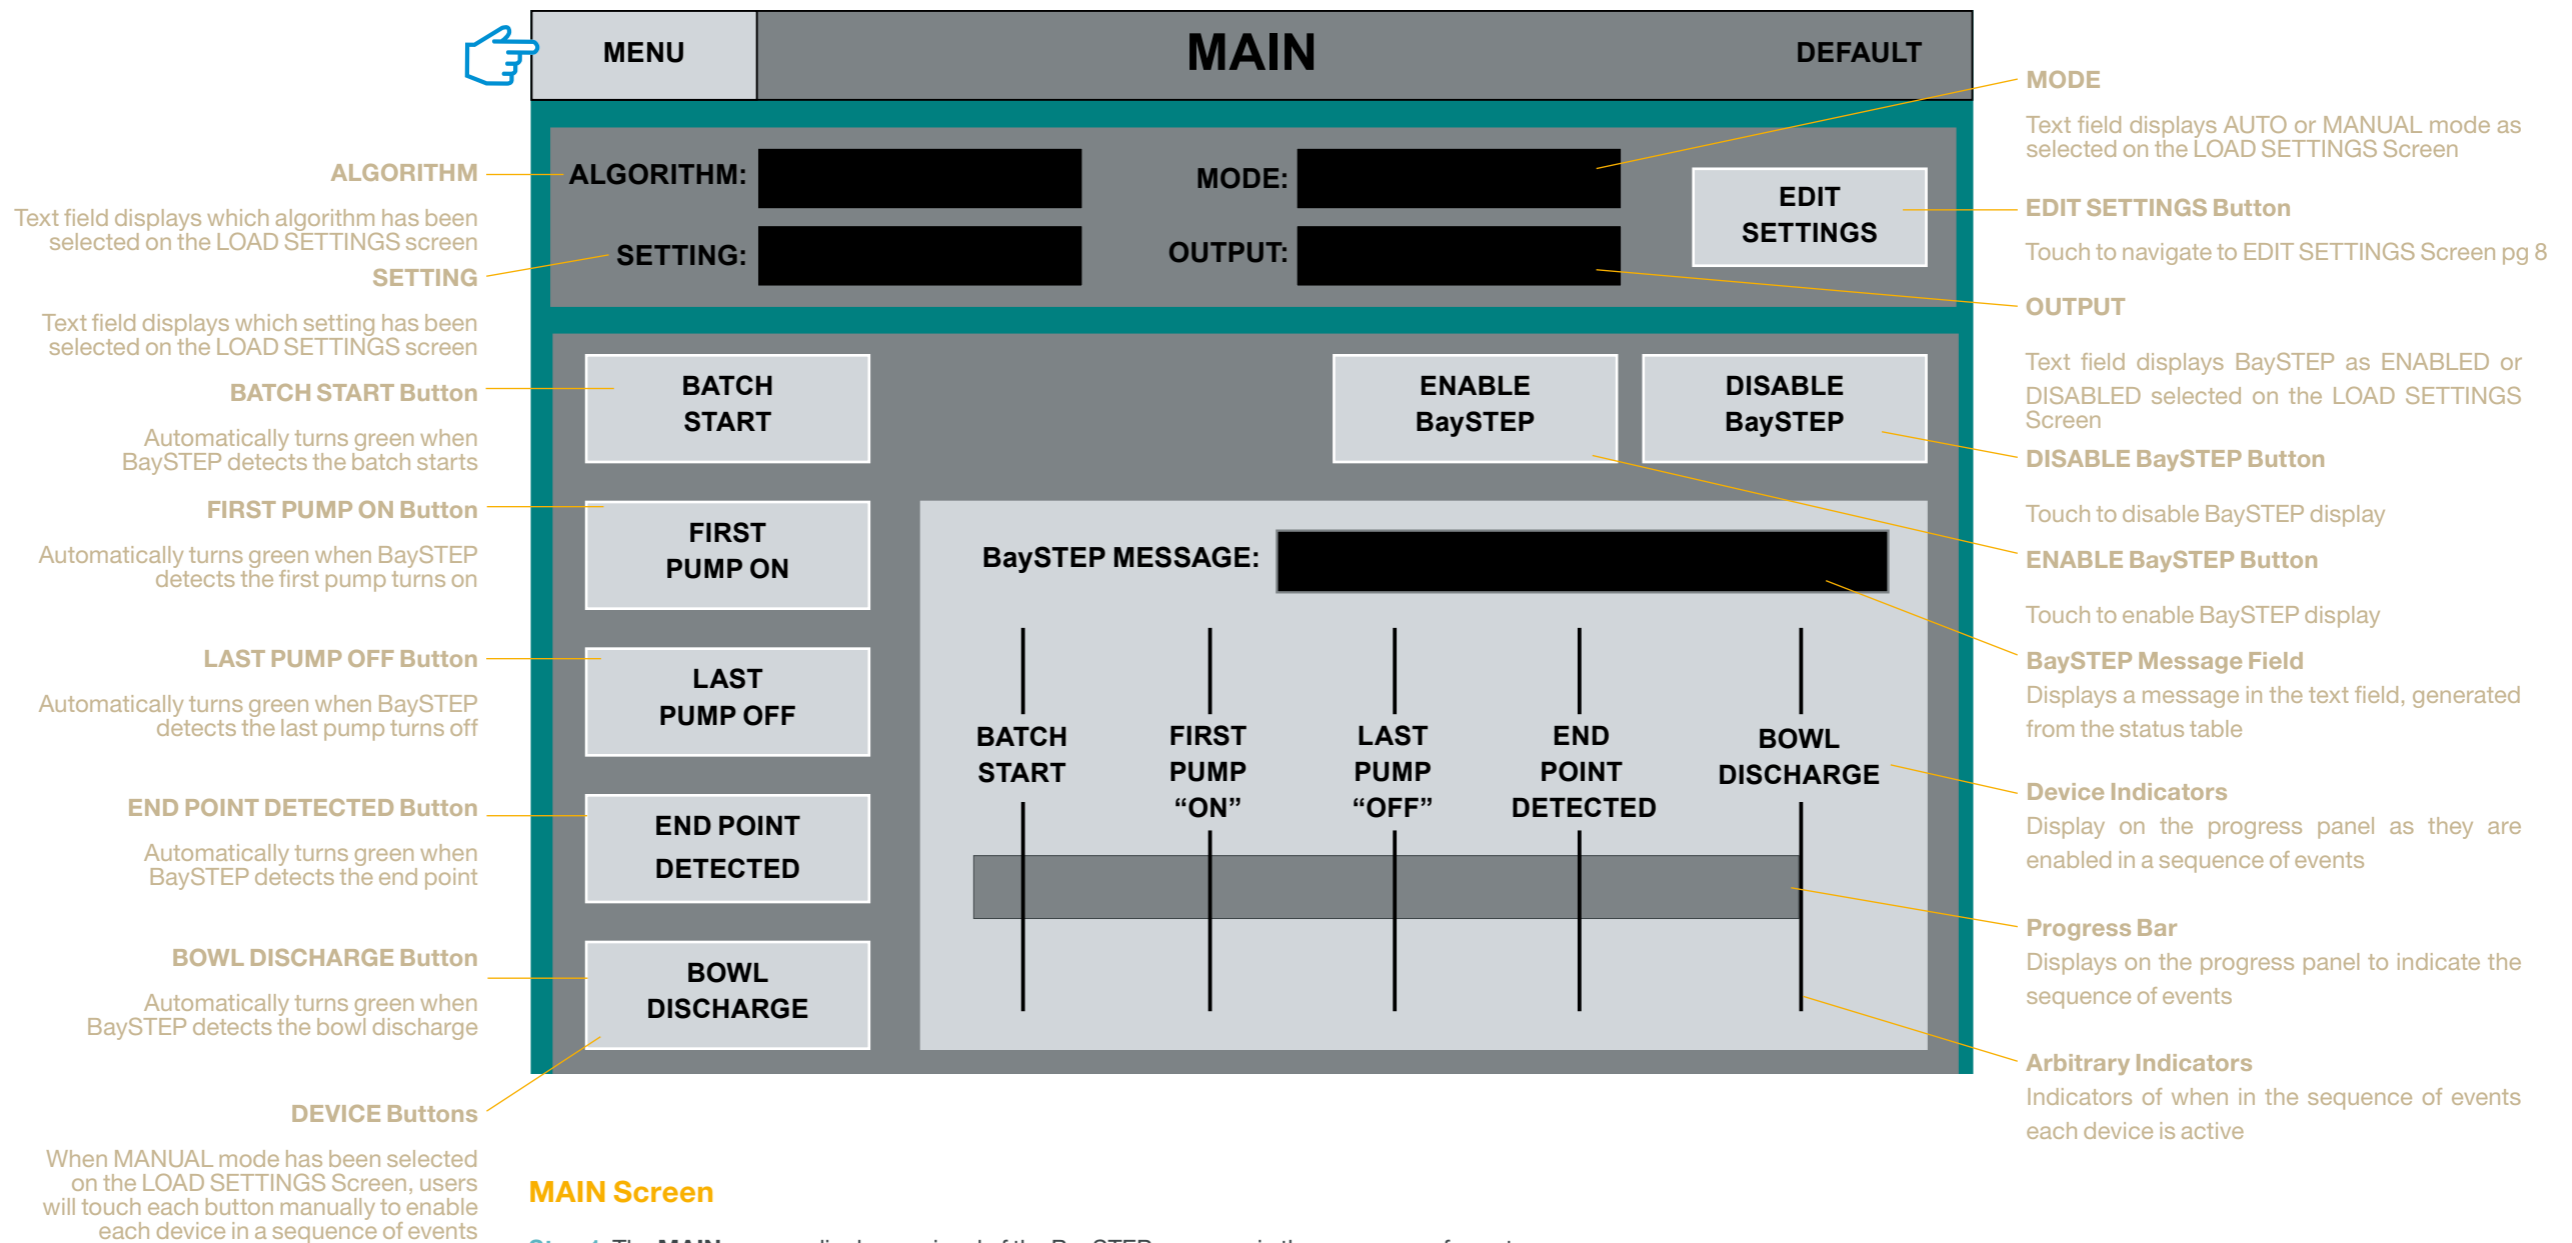

**Step 3:** Touch the **MENU** button top left of screen: navigates to the **MAIN MENU** screen.

# MAIN - HOME

## MAIN Screen

**Step 1:** The **MAIN** screen displays a visual of the BaySTEP progress in the sequence of events.

**Step 2:** Touch the **MENU** button top left of screen: navigates to the **MAIN MENU** screen.

# LOAD SETTINGS

The screenshot shows the 'LOAD SETTINGS' screen with the following components and callouts:

- MENU** button (top left): A hand icon points to it, indicating it navigates to the main menu.
- ALGORITHMS** section: Contains a list of steps (STEP 1 to STEP 5) with up and down arrows on the left. Callout: "Use the UP or DOWN arrows to select from five STEP algorithms".
- SETTINGS** section: Contains a list of settings (Setting 1 to Setting 10) with up and down arrows on the right. Callout: "Use the UP or DOWN arrows to select from ten STEP settings".
- MODE OF OPERATION** section: Contains 'AUTO' and 'MANUAL' buttons. Callout: "Touch one to select operating STEP in either AUTO or MANUAL Mode".
- BaySTEP OUTPUT** section: Contains 'ENABLE' and 'DISABLE' buttons. Callout: "Touch one to enable or disable the STEP output".
- LOAD SETTINGS** button (bottom center): Callout: "Touch to load the settings selected".
- CANCEL** button (bottom right): Callout: "Touch to cancel the settings selected".

## LOAD SETTINGS Screen

**Step 1:** Touch the **MENU** button top left of screen: navigates to the **MAIN MENU** screen.

# EDIT SETTINGS

Setting 1

SETTING 1 NAME: SETTING 1

|                          |                         |                          |                         |                         |
|--------------------------|-------------------------|--------------------------|-------------------------|-------------------------|
| P <sup>0</sup><br>15 000 | P <sup>1</sup><br>2 000 | P <sup>2</sup><br>20 000 | P <sup>3</sup><br>4 000 | P <sup>4</sup><br>0 000 |
| P <sup>5</sup><br>0 000  | P <sup>6</sup><br>0 000 | P <sup>7</sup><br>0 000  | P <sup>8</sup><br>0 000 | P <sup>9</sup><br>0 000 |

SAVE SETTING   SAVE AS SETTING   SHIFT UP   SHIFT DOWN   INSERT SETTING   DELETE SETTING   CLEAR SETTING

Setting 1 (previously selected on the **LOAD SETTINGS Screen**) automatically populates in this text box

**P0-P9 Setting Variables:**  
First select the Algorithm (1-5) and the Settings (1-10)...

Each Setting (1-10) has ten associated setting variables (P0-P9)...

Touch each Setting Variable button (P0-P9): a pop-up window displays details generated from the status table (shown on next page 9)

## EDIT SETTINGS Screen

Use the buttons along the bottom of **EDIT SETTINGS Screen** to Save the setting selected, Save the setting as a different name (than Setting 1 for example), Shift Up/Down the list of Settings (like using the UP/Down arrows), Insert a setting number such as 9 in place of 1, Delete a setting listed above and Clear the setting selected.

**Step 1:** Touch each setting variable for details.

**Step 2:** Touch the **MENU** button top left of screen: navigates to the **MAIN MENU** screen.

# VARIABLE DETAILS

**P0**

Window for looking for the Threshold value

- Seconds after the first application
- Approximately equal to the dosing time

**P4**

Not used

**P8**

Not used

**P1**

Move the End Point Time

- A multiplier of the Threshold value

**P5**

Not used

**P9**

Not used

**P2**

Mixing time for the Batch

- In Seconds

**P6**

Not used

**P3**

Minimum rate of change for the noise signal

**P7**

Not used

# ALARMS

**Alarms** displays alarm details generated from the status table.

| Alarm time | Message |
|------------|---------|
|------------|---------|

**ACKNOWLEDGE**

## ALARMS Screen

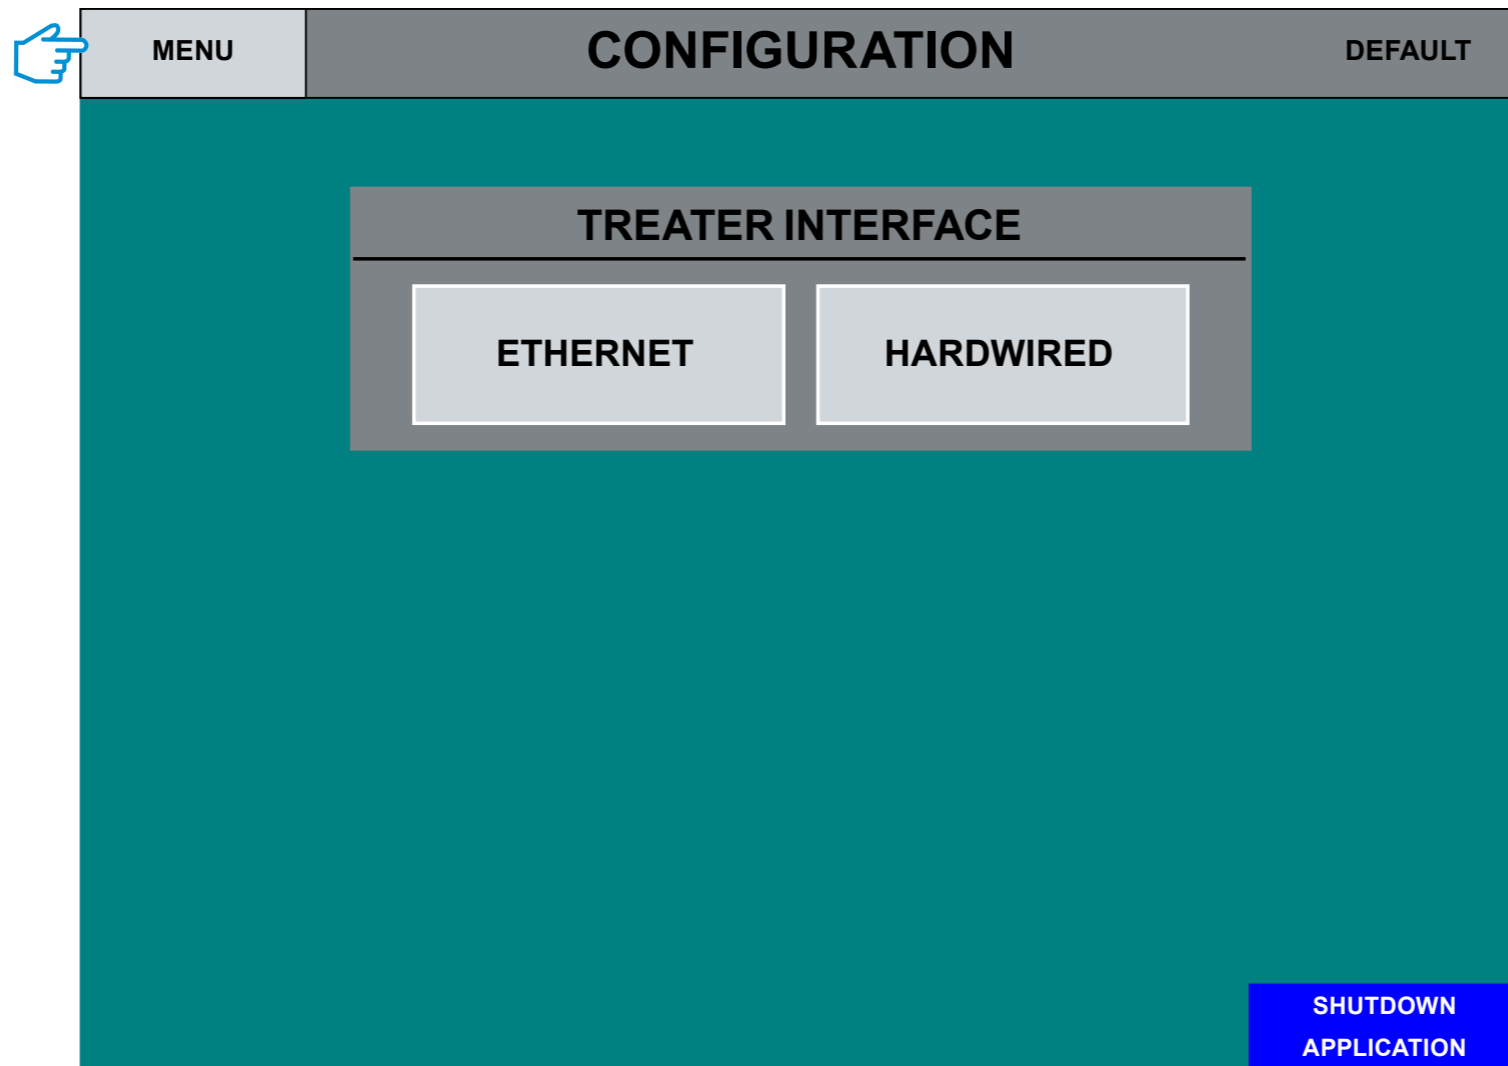

Touch the message displayed on the screen above, then touch the **Acknowledge Button** to clear the message from the **ALARMS Screen**.

**Step 1:** Touch the **MENU** button top left of screen: navigates to the **MAIN MENU** screen.

# CONFIGURATION

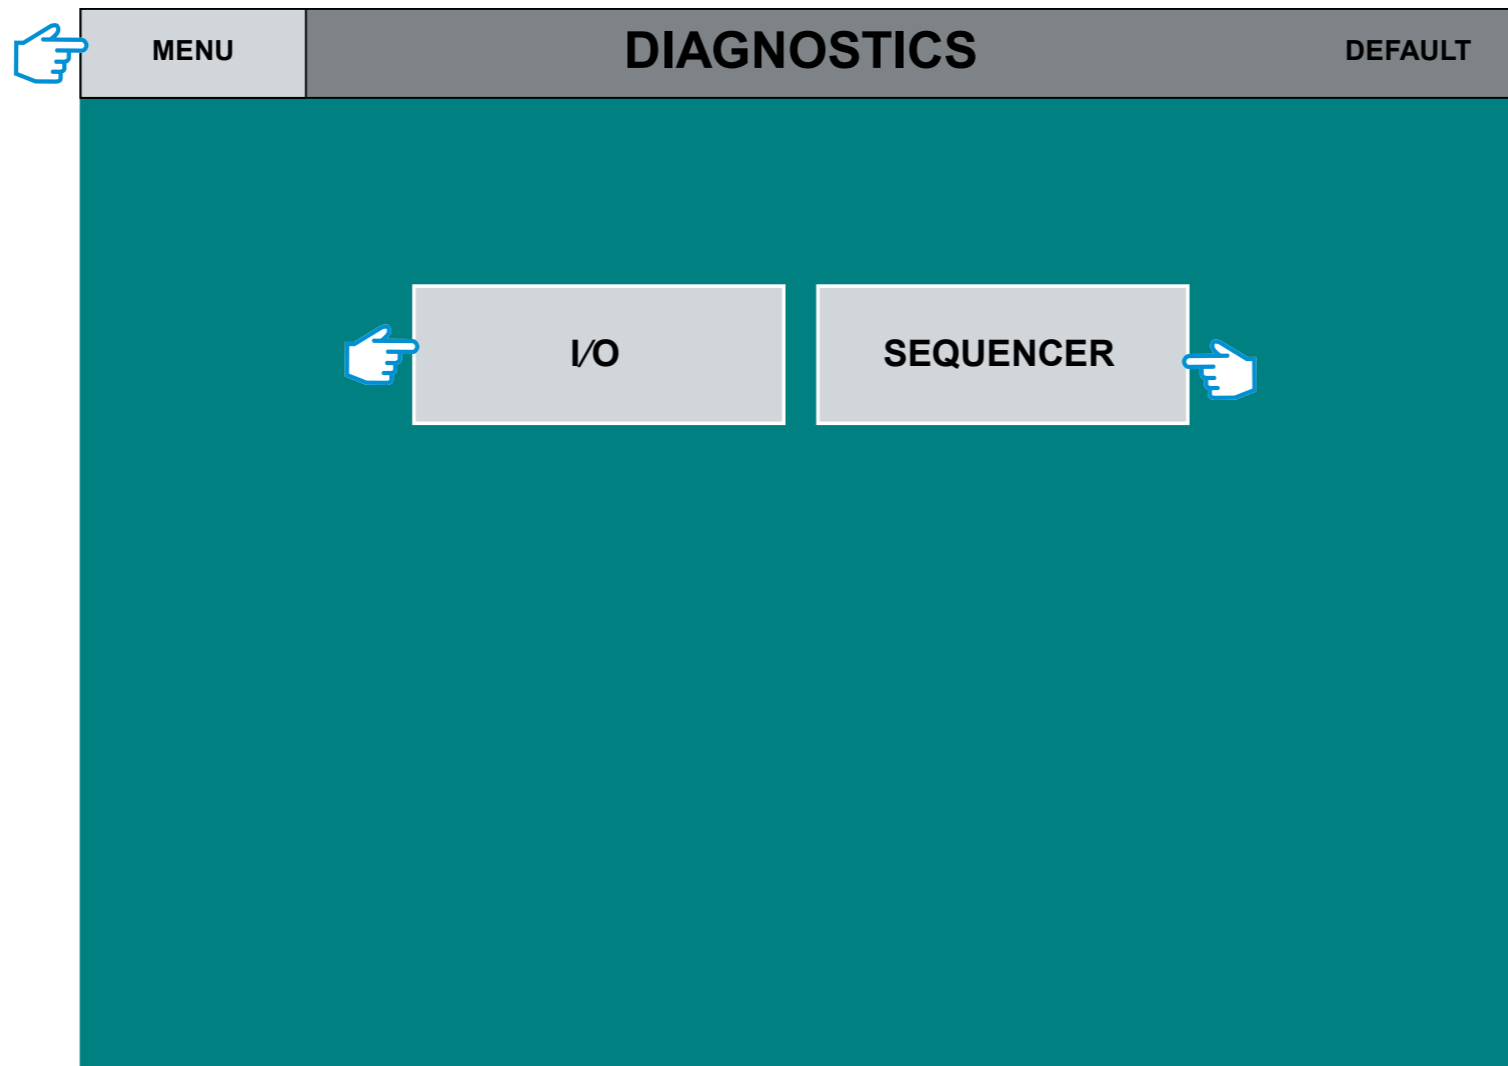

## CONFIGURATION Screen

**Step 1:** Select how the treater machine will interface with the application: either via Ethernet connection or Hardwired into the control panel.

**Step 2:** Touch the **MENU** button top left of screen: navigates to the **MAIN MENU** screen.

# DIAGNOSTICS

## DIAGNOSTICS Screen

**Step 1:** Touch to select either **I/O** or **SEQUENCER**...

- Touch the **I/O** button: navigates to page 13...
- Touch the **SEQUENCER** button: navigates to page 14...

**Step 2:** Touch the **MENU** button top left of screen: navigates to the **MAIN MENU** screen.

I/O

# I/O STATUS

**MENU** **I/O STATUS** **DEFAULT**

**ANALOG INPUT**

STEP SIGNAL

**DIGITAL INPUTS (ETHERNET)**

- BATCH START
- PUMPS RUNNING
- BOWL DISCHARGE
- BATCH CANCELLED
- TREATER HEARTBEAT

**DIGITAL OUTPUTS (ETHERNET)**

- READY TO START
- END POINT DETECTED
- BaySTEP HEARTBEAT

## I/O Screen

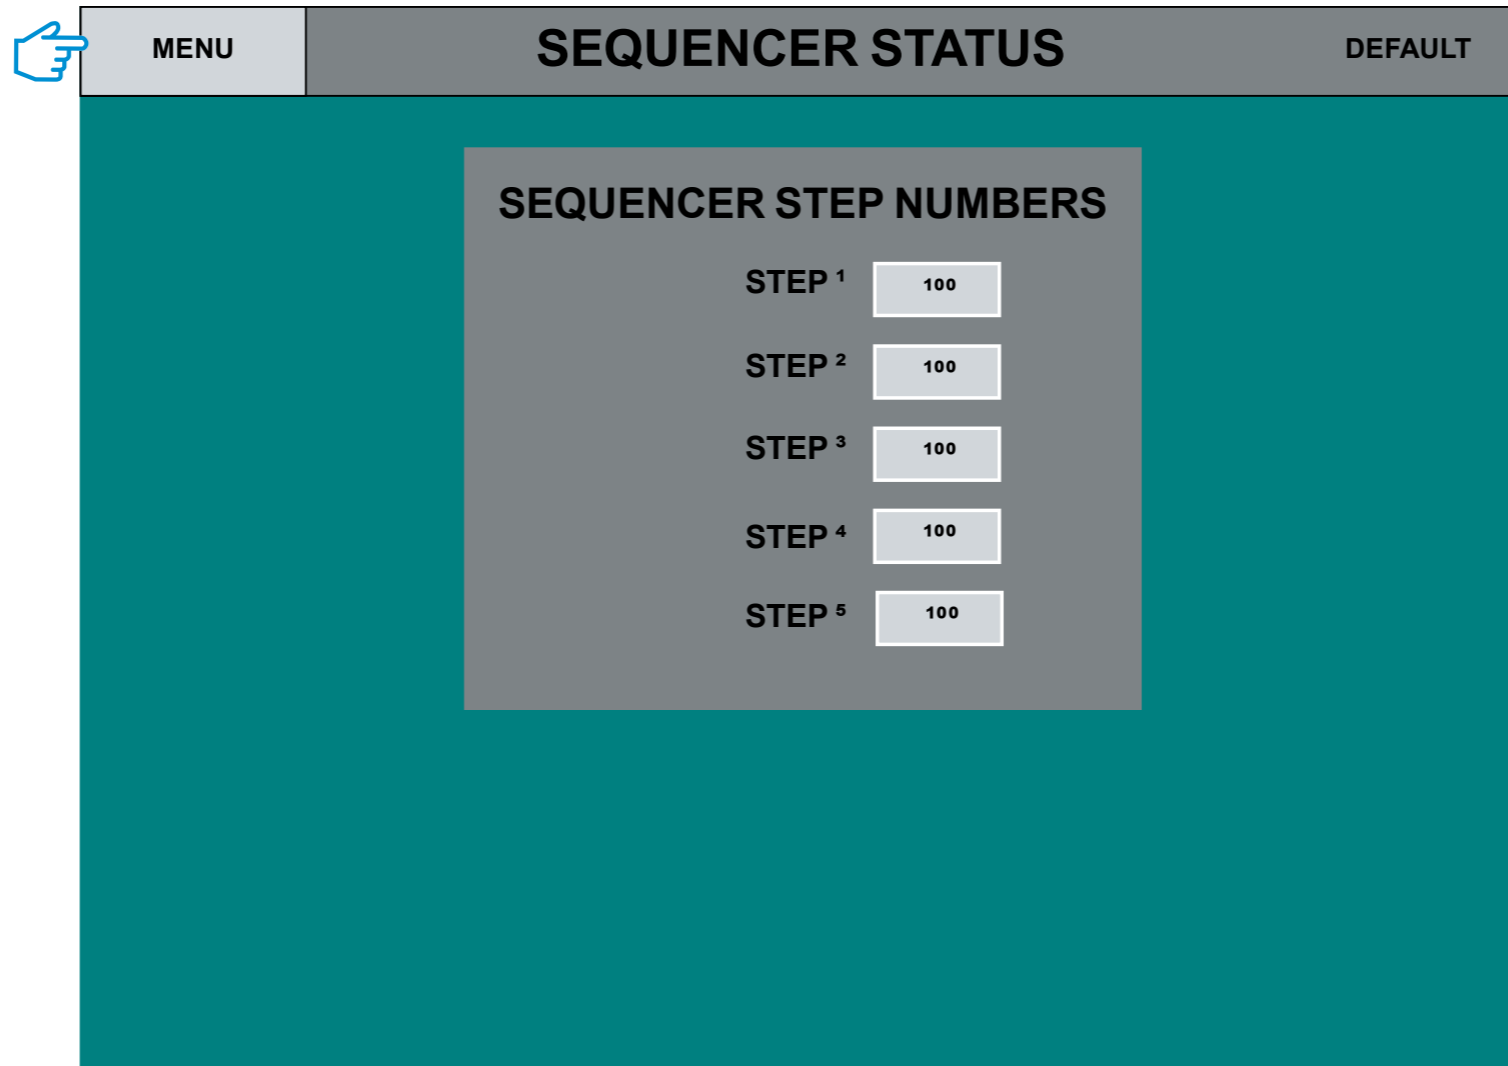

A display screen used for diagnostics and trouble shooting.

**Step 1:** Touch the **MENU** button top left of screen: navigates to the **MAIN MENU** screen.

# SEQUENCER STATUS

## SEQUENCER Screen

A display screen used for diagnostics and trouble shooting.

**Step 1:** Touch the **MENU** button top left of screen: navigates to the **MAIN MENU** screen.

# REPORTS

**MENU** **REPORTS** **DEFAULT**

To transfer files: Drag from one storage location to the other.

**PanelView Storage:** **USB Storage:**

- 2017\_02\_03\_01\_0000.CSV
- 2017\_02\_03\_04\_0023.
- CSV 2017\_02\_03\_07\_0001.
- CSV 2017\_02\_03\_12\_0003.
- CSV 2017\_02\_03\_01\_0024.CSV
- 2017\_02\_03\_01\_0100.CSV

## REPORTS Screen

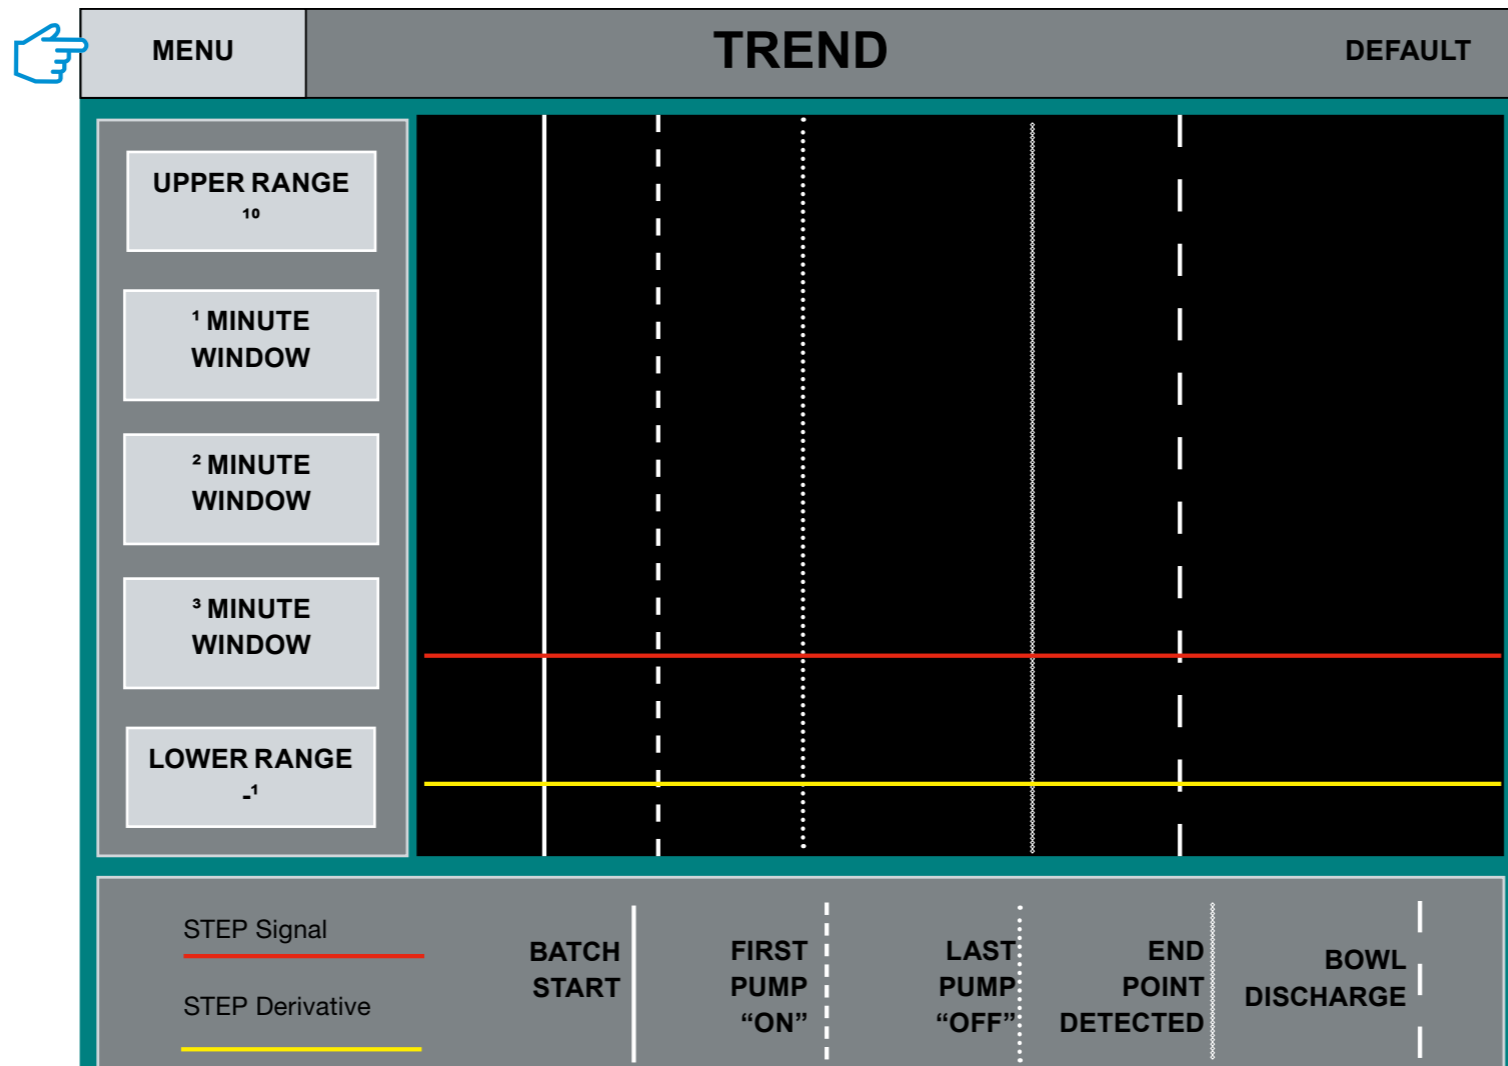

After selecting a report (or reports), touch the right facing arrow to transfer the files to the USB side. Files may be transferred back to the repository side..

**Step 1:** Touch the **MENU** button top left of screen: navigates to the **MAIN MENU** screen.

# TRENDS

## TRENDS Screen

A display screen used for diagnostics and trouble shooting. Buttons on the left hand side are configurable. Touch to change the parameters.

**Step 1:** Touch the **MENU** button top left of screen: navigates to the **MAIN MENU** screen.
